Independent Auditor's Report

To the Shareholders of
Canadian Horizons First MIC Fund Inc.

We have audited the accompanying financial statements of Canadian Horizons First MIC Fund Inc., which comprise the statement of financial position as at April 30, 2014, the statement of earnings and total comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Canadian Horizons First MIC Fund Inc. as at April 30, 2014 and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

1. Nature of operations

Canadian Horizons First MIC Fund Inc. (the "Company") was incorporated under the Canada Business Corporations Act on May 6, 2011 and commenced operations as a mortgage investment corporation. The address of the registered office and principal place of business is Suite 900, 645 - 7th Avenue S.W. Calgary, Alberta T2P 4G8.

The Company operates as a mortgage investment corporation carrying on the business of investing directly or indirectly in mortgages granted as security for loans to builders, developers and owners of commercial, industrial and residential real estate located in various provinces of Canada.

The Company invests in mortgages originated, sourced, arranged, administered and serviced by CareVest Capital Inc. ("CCI") under an agreement with CCI.

The Company has appointed Carecana Management Corp. ("Carecana") as its investment fund manager and portfolio manager pursuant to a management agreement.

These financial statements were approved by the directors, Mr. Roy Goddard and Mr. Alan Baumann and authorized for issue on July 17, 2014.

2. Basis of presentation

Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

Basis of preparation

The financial statements have been prepared on a going concern basis and measured at historical cost except for financial instruments classified as at fair value through profit or loss ("FVTPL"), which are measured at fair value. These financial statements are presented in Canadian dollars, which is the Company's functional and presentation currency. Historical cost is based on the fair value of the consideration given in exchange at the transaction date.

General

The Company's financial statements are prepared using the significant accounting policies described in Note 3. These policies have been applied throughout the period unless otherwise stated.

3. Significant accounting policies

Cash

The Company's policy is to disclose bank deposit balances under cash, including cash and short-term investments in money market instruments, net of outstanding bank overdrafts including cash held in trust by Canadian Horizons Settlement Corp. ("CH Settlement Corp."). All components are liquid and any short-term investments have an original maturity of less than three months.

Revenue recognition

The Company purchases fully serviced mortgage investments from CCI and its finance income is presented net of the priority interest allocation retained by CCI from the interest paid by the borrower on the investments acquired by the Company. Finance income is accounted for on an accrual basis and is measured at the fair value of the consideration received or receivable.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

3. Significant accounting policies (continued)

Finance income

Interest revenue is recognized when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest revenue is accrued on a timely basis, by reference to the principal outstanding balance and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Upon impairment of a mortgage receivable, subsequent interest income is recorded using the rate of interest used to discount the future cash flows in measuring impairment.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of a past event, if it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. Provisions are not recognized for future operating losses.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

3. Significant accounting policies (continued)

Financial instruments

Financial assets

All financial assets are recognized and derecognized on trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at FVTPL, which are initially measured at fair value.

Financial assets are classified into the following specified categories: financial assets at FVTPL, held-to-maturity investments, available-for-sale financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

The Company has classified its financial assets as follows:

Cash	Loans and receivables
Mortgages receivable	Loans and receivables
Accounts receivable	Loans and receivables
Finance income receivable	Loans and receivables

Effective interest method

The effective interest method is a method of calculating the amortized cost of financial assets and liabilities and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Financial assets - loans and receivables

Cash, mortgages receivable, accounts receivable and finance income receivable that have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortized cost using the effective interest method, less any impairment. Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Financial assets - impairment of financial assets recorded at amortized costs

At each reporting date, the Company assesses whether there is any evidence that a financial asset or group of financial assets is impaired. The Company reviews the carrying amounts of its financial assets recorded at amortized costs, including mortgages receivable to determine whether there is objective evidence that those financial assets have suffered an impairment loss. A financial asset, or group of financial assets, is impaired when objective evidence demonstrates that the estimated future cash flows for the financial asset or group of financial assets have been negatively impacted. Objective evidence that a financial asset is impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower on interest and principal repayments, restructuring of a loan or advance by the Company on terms that the Company would not otherwise consider, or other observable data which indicates that there is a measureable decrease in the estimated cash flows.

Financial assets - impairment of cash, mortgages receivable, accounts receivable and finance income receivable

If an impairment loss has occurred, the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

3. Significant accounting policies (continued)

Financial instruments (continued)

Financial assets - impairment of cash, mortgages receivable, accounts receivable and finance income receivable (continued)

The carrying amount of the asset is reduced through the use of an allowance account, and the loss is recognized in profit or loss and classified as an impairment expense. Interest income ("accreted income") continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The total amount to be realized as interest income is equal to the difference between the present value of the future cash flows of the mortgage and the non-discounted value, resulting in this portion of the loss being accreted back into income through the recording of interest income. The interest income is classified as finance income.

Receivables together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Company.

If, in a subsequent reporting period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If an impairment is later recovered, the recovery is credited to profit or loss and classified as finance income.

Financial assets - derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset. A transfer is considered to have occurred if the Company transfers the contractual rights of the cash flows, or if it retains the rights to the contractual cash flows but assumes an obligation to pay these cash flows to another recipient. If it is determined that the Company has transferred a financial asset, it evaluates the extent to which it retains the risks and rewards of ownership of the financial asset. If the entity transfers substantially all the risks and rewards of ownership of the financial asset, the Company will derecognize it. If the entity retains substantially all the risks and rewards of ownership of the financial asset, the Company will continue to recognize the asset. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay.

Financial liabilities - classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement. The Company has classified non-voting preferred shares redeemable at the option of the holder as liabilities.

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis. The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

The Company has classified its financial liabilities as follows:

Accounts payable and accrued liabilities	Other financial liabilities
Due to related companies	Other financial liabilities
Dividends payable	Other financial liabilities
Preferred shares	Other financial liabilities

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

3. Significant accounting policies (continued)

Equity

Capital stock is recorded at the value of the shares issued. Costs directly related to the issuance of shares are reported as a reduction from equity, net of tax effects.

Retained earnings includes earnings or losses from the current period and prior periods.

Dividends are included under liabilities in the period in which the dividend is declared and approved by the Board of Directors, until they are paid by the Company.

Preferred shares

Preferred shares, which are retractable and redeemable, are initially recorded at fair value, net of any costs that are directly related to the issuance of the shares. The shares are subsequently measured at amortized cost using the effective interest method. International Accounting Standard ("IAS") 39, Financial Instruments: Recognition and Measurement ("IAS 39"), requires the preferred shares to be recorded at the redemption price. The dividends on these preferred shares and any redemption gains or losses are recognized in profit or loss.

Earnings per share

Basic earnings per share is calculated by dividing the net earnings (loss) for the period attributable to equity owners of the Company by the weighted-average number of common shares outstanding during the year. Diluted earnings per share is calculated based on the weighted-average number of common shares plus dilutive common share equivalents outstanding.

Dividends

Dividends paid are accounted for as an expense of the Company and comprise the interest earned on the mortgages receivable less all expenses of the Company.

Change in accounting policy

IFRS 13, Fair Value Measurement ("IFRS 13")

The Company adopted IFRS 13 which sets out in a single IFRS framework the application of fair value to those assets and liabilities qualifying or permitted to be carried at fair value and provides enhanced disclosure requirements when fair value is applied. As a result, the Company has included additional disclosure in this regard (Note 13).

4. Future accounting changes

IFRS 9, Financial Instruments

The IASB released IFRS 9, Financial Instruments ("IFRS 9"), in October 2009 as the first step in replacing IAS 39. It was amended in October 2010 to include financial liabilities, most of which were carried forward unchanged from IAS 39. IFRS 9 is based on how an entity manages its financial instruments in the context of its business model, the contractual cash flow characteristics of the financial assets and uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options in IAS 39. In December 2011, the IASB amended IFRS 9 to require application for annual periods beginning on or after January 1, 2015 and not to require restatement of comparative period financial statements upon initial application. At its November 2013 meeting, the IASB tentatively decided that the mandatory effective date of IFRS 9 will be no earlier than annual periods beginning on or after January 1, 2017. The Company continues to monitor this project and the financial reporting implications.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

4. Future accounting changes (continued)

IAS 32, Financial Instruments: Presentation

In December 2011, the IASB published IAS 32, Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities, and issued new disclosure requirements in IFRS 7. The effective date for the amendments to IAS 32 is annual periods beginning on or after January 1, 2014. The Company intends to adopt the amendments to IAS 32 in its financial statements for the annual period beginning January 1, 2014. The Company does not expect the implementation of the new standard to have a significant impact on its financial statements.

5. Critical accounting judgments and key sources of estimation uncertainty

In the application of the Company's significant accounting policies, which are described in Note 3, the Company is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In the process of applying the Company's accounting policies, the directors have made the following judgments, estimates, and assumptions which have the most significant effect on the amounts recognized in the financial statements.

Critical judgments in applying accounting policies

Allowance for mortgage impairment

An allowance for mortgage impairment consists of specific reserves that are maintained at a level that, in management's judgment, is adequate to absorb all credit related losses in the Company's portfolio. The judgments include inputs such as liquidity risk, credit risk, and volatility. Changes in the assumptions about these factors could result in changes to the reported fair value of financial instruments. In management's judgment, no unusual credit risk exists and the levels of mortgage impairment provisions are adequate to absorb all credit related losses in the Company's portfolio, given existing conditions. Management's policies for addressing credit risk are discussed in Note 13.

Tax position

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that the taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based on the likely timing and level of future taxable profits together with future tax planning strategies.

When applicable, the Company adjusts the previously recorded tax provision and associated tax assets and liabilities to reflect changes in estimates and for any tax assessments levied.

Critical accounting estimates and assumptions

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

5. Critical accounting judgments and key sources of estimation uncertainty (continued)

Critical accounting estimates and assumptions (continued)

Allowance for mortgage impairment

Determining whether or not a mortgage is impaired requires management to make an estimation of the recoverable amount of the mortgage. Estimating the recoverable amount requires the Company to determine the present value of the estimated future cash flows, using an appropriate discount rate for the related mortgage, which involves a number of significant estimates and assumptions with respect to the value of the properties involved including but not limited to the value placed on collateralized assets, the timing of future cash inflows and outflows, costs to complete and costs to be incurred in making the sale. Valuation techniques include using the discounted cash flow model. Inputs into these models are taken from observable markets where possible, but where this is not feasible, estimations are required to establish fair values. Note 7 provides detailed information about the key assumptions used in the determination of impairment of financial instruments, as well as the detailed sensitivity analysis for these assumptions. Management believes that the chosen valuation techniques and assumptions used are appropriate in determining the future cash flows of its financial instruments.

Redemption price

The redemption price of a preferred share is determined by the directors, for which they must make estimates and assumptions over factors involved. Factors that may be considered include the last redemption price of that series of preferred shares, the last offering price of that series of preferred shares, the assets and liabilities attributable to that series of preferred shares, the net sale, issue and holding costs of such preferred share, specific class or series expenses attributable to such preferred share and the liquidity reasonably available to the Company.

6. Cash

For the purposes of the statement of cash flows, cash includes cash on hand, cash on deposit and cash held in trust. Cash at the end of the reporting period as shown in the statement of cash flows can be reconciled to the related items in the statement of financial position as follows:

	2014	2013
	\$	\$
Operating deposit bank account	364	436
Operating petty cash	100	100
Cash held in trust	45,539	16,022
	46,003	16,558

7. Mortgages receivable

The mortgages receivable consist of short-term financing for commercial, industrial, and residential mortgages and term loans for completed or substantially completed income producing properties in British Columbia, Alberta, Ontario and Yukon. At each reporting period, an impairment review is conducted on all financial instruments except those designated as at FVTPL, including mortgages receivable. The impairment review involves assessing objective evidence which may indicate the mortgage is impaired. If an impairment is considered to have occurred, the present value of the future cash flows of the mortgages is compared to the carrying value, with any excess of carrying value over the present value of future cash flows booked as an impairment charge to the mortgage receivable.

As at April 30, 2014, the Company has mortgages receivable which earn interest at rates of 5.50% to 13.00% per annum and are secured by real property. The mortgages receivable are typically due within six to eighteen months.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

7. Mortgages receivable (continued)

	2014	2013
	\$	\$
Mortgages due within the next 12-month period, net of allowance	2,416,679	2,634,720
Mortgages due after the next 12-month period, net of allowance	413,888	-
	2,830,567	2,634,720

Mortgages receivables disclosed above include amounts that may be past due at the end of the reporting period but against which the Company has not recognized an allowance for mortgage impairment on specific mortgages because there has not been a significant change in credit quality and the amounts are still considered recoverable. The Company does not hold any collateral or other credit enhancements over these balances nor does it have a legal right of offset against any amounts owed by the Company to the counterparty.

Aging of mortgage receivables in arrears but not impaired

A mortgage is defined to be in arrears when the principal is not received in accordance with the terms of the original agreement. Mortgages receivable in arrears are broken out as follows:

	2014	2013
	\$	\$
0-90 days past due	529,640	467,199
91-365 days past due	-	5,438
Over 365 days past due	1,754	-
	531,394	472,637

Mortgages receivable impairment provision

	2014	2013
	\$	\$
Balance, beginning of the year	-	-
Impairment losses recognized	28,088	-
Balance, end of the year	28,088	-

The mortgages receivable has been divided for information purposes as follows:

	2014	2013
	\$	\$
Residential mortgages, net of allowance	2,830,567	2,422,289
Commercial mortgages, net of allowance	-	212,431
	2,830,567	2,634,720

In determining the recoverability of a mortgage receivable, the Company considers any change in the credit quality of the receivable from the date credit was granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

7. Mortgages receivable (continued)

Valuation techniques and assumptions applied for the purpose of measuring the present value of future cash flows

A scenario analysis is used to determine the present value of future cash flows for the impaired mortgages receivable. Values are input with reference to quoted market prices when available, including third party appraisals, listing agreements, purchase agreements, and property tax assessments. Cash outflows include costs to complete and costs incurred to make the sale, including marketing and legal costs. Assumptions used in calculating the above are discussed in Note 5.

8. Related party transactions

The Company invests in mortgages originated, sourced, arranged, administered and serviced by CCI under an agreement with CCI. The entities are related by virtue of common officers, directors or shareholders. Under this agreement, CCI is entitled to a priority allocation of the interest accruing and payable on all mortgage loans up to 2.5% of the outstanding principal balance calculated daily, aggregated and paid monthly. CCI retains a priority interest allocation of up to 2.5% from the interest paid by the borrowers on the mortgage investments acquired by the Company. These agreements have an unspecified term and may be terminated by the parties as specified therein.

The Company pays a management fee of 0.5% per annum of the total assets of the Company, calculated daily, aggregated and payable monthly in arrears, plus applicable taxes, to Carecana for acting as its investment fund manager and portfolio manager. The companies are members of the same corporate group.

The Company pays monthly fees of 1% per annum of the proportionate share of total assets of the Company attributable to the Series A1 and B1 preferred shares, plus applicable taxes, to CVC Market Point Inc. ("CVC") for acting as its agent in selling the preferred shares of the Company. The Company will also pay CVC any amounts it deducts from any redemption payments. The companies are related through common ownership.

CH Settlement Corp., a company related through common management, holds the funds in trust for interest earned from mortgage investment, interest paid to investors throughout the period and idle funds available for investment. Any amounts receivable or payable at period-end remain in this trust. Advances and repayments are made to CH Settlement Corp. throughout the period at the request of the Company.

During the year, the Company entered into the following transactions with related companies:

	Expenses	
	2014	2013
	\$	\$
Management fee		
Carecana Management Corp.	14,896	9,148
Agency fee		
CVC Market Point Inc.	29,791	17,917
	44,687	27,065
		Other
	2014	2013
	\$	\$
Priority interest retained by CareVest Capital Inc.	63,800	19,522

These transactions were in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related companies.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

8. Related party transactions (continued)

The following balances were outstanding at the end of the reporting period:

	2014	2013
	\$	\$
Due to		
Carecana Management Corp.	1,244	1,118
CareVest Capital Inc.	-	700
CVC Market Point Inc.	2,487	2,236
	3,731	4,054

Compensation of key management personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of the Company. The Company had no employees and there was no remuneration for directors during the year.

9. Income taxes

Deferred income tax reflects the net tax effects of the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets are as follows:

	2014	2013
	\$	\$
Deferred income tax asset		
Non-capital loss carry-forwards	26,212	-
Tax rate	25%	25%
	6,553	-

The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which those temporary differences become deductible and during the loss carry-forward periods. Management considers the scheduled reversal of deferred tax assets and liabilities, projected future taxable income, and tax planning strategies in making this assessment. Due to future expected operating results, management has determined that it is probable that the deferred income tax assets will be realized. The Company has tax loss carry-forwards of \$26,212 which expire between 2032 and 2034.

Redemption gain	(19,664)	(9,106)	-
Value of shares outstanding			
April 30, 2014	1,959,794	906,606	18

Included in the shares issued in the year ended April 30, 2014 were shares issued for dividends totalling \$42,056 (2013 - \$35,949) on Series A1 preferred shares, \$14,641 (2013 - \$3,590) Series B1 preferred shares and \$1 (2013 - \$2) on Series F1 preferred shares.

At April 30, 2014, there are \$182,627 (2013 - \$40,420) Series A1 preferred shares, \$Nil (2013 - \$Nil) Series B1 preferred shares and \$Nil (2013 - \$Nil) Series F1 preferred shares scheduled for redemption in the next fiscal year.

All Class A, B, C, D, E, F, G, First, Second, Third, Fourth and Fifth preferred shares are not entitled to vote separately as a class or series or to dissent upon a proposal to amend the articles of the Company to:

- increase or decrease any maximum number of authorized shares of such class or series, or increase any maximum number of authorized shares of a class or series having rights or privileges equal or superior to the shares of such class or series; or
- effect an exchange, reclassification or cancellation of all or part of the shares of such class or series; or
- create a new class or series of shares equal or superior to the shares of such class or series.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

10. Preferred shares (continued)

Retraction rights

The Company may retract at any time and from time to time in its sole discretion any outstanding Series A1, B1 or F1 preferred share on such terms and conditions, including without limitation the method and payment therefor, as are established or set by resolution of the directors in their sole discretion from time to time.

Redemption features

The registered holder of a Series A1, Series B1 or Series F1 preferred share, by giving a duly completed and properly executed written notice to the Company (the "Redemption Notice"), is entitled to request that the Company redeem the whole or any part of the preferred shares of that series held by such holder:

- (a) once every twelve months (an "Annual Redemption"); or
- (b) upon approval of the directors in their sole discretion, at any other time (a "Discretionary Redemption").

Upon acceptance by the directors of the Redemption Notice and the redemption request, the Redemption Notice will thereafter be irrevocable by the holder without the consent of the Company and the preferred shares specified therein (the "Redeemable Shares") will be considered to be tendered for redemption as at the acceptance date (the "Notice Date"). The holder of the Redeemable Shares will continue to have all of the holder's rights as a shareholder in respect of each Redeemable Share until the redemption payment (as defined below) for that Redeemable Share has been paid in full.

The redemption payment for an Annual Redemption will be the redemption price of the Redeemable Share, calculated as at the end of business on the business day immediately preceding the Redemption Date (as defined below), plus the pro rata share of any dividend distributions declared on such Redeemable Share which have accrued up to and including the Redemption Date, to the extent same are not included in the calculation of the redemption price and remain unpaid (the "Annual Redemption Payment").

The redemption payment for a Discretionary Redemption will be the redemption price of the Redeemable Share, calculated as at the end of business on the business day immediately preceding the Redemption Date (as defined below), plus the pro rata share of any dividend distributions declared on such Redeemable Share which have accrued up to and including the Redemption Date, to the extent same are not included in the calculation of the redemption price and remain unpaid, less a discount in an amount set by the directors as at the Redemption Date (the "Discretionary Redemption Payment")., but not exceeding 3% of the redemption price.

For the purposes of these redemption provisions, the Annual Redemption Payment and the Discretionary Redemption Payment will together be referred to as the "Redemption Payment".

The Redemption Payment for each Redeemable Share will be reduced by a percentage of the original purchase price of the Redeemable Share in accordance with the following schedule:

(1)	Series A1	Series B1	Series F1
	%	%	%
Year 1	6	3	2
Year 2	5.5	2	1
Year 3	5	1	-
Year 4	3	-	-
Year 5	2	-	-

- (1) For the purpose of determining the applicable percentage, "year" is the year in which the Notice Date falls and each year is calculated from the issue date of a Redeemable Share to and including the next annual anniversary date.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

10. Preferred shares (continued)

Redemption features (continued)

Subject to the limitations set out below, on the last day of the calendar month (or the next following business day if the last day of the calendar month falls on a day that is not a business day) which is five full months following the month in which the Notice Date falls or such earlier date as determined by the directors in their sole discretion (the "Redemption Date"), the Company will redeem the Redeemable Shares. Subject to the directors' right to extend the time for payment of any Redemption Payment if in their sole discretion the directors determine that such payment would be prejudicial to the interests of the remaining shareholders of the Company, and any limitations on the payment of the Redemption Payment set out in these redemption provisions, the Redemption Payment, less any reductions, amounts or fees payable in respect of the Redeemable Share, will be paid on or within 10 business days of the Redemption Date.

Notwithstanding any other provision of this redemption feature, the aggregate amount of the Redemption Payments that the Company is obliged to make on or in respect of each Redemption Date is limited to an amount that is equal to 1% of the aggregate redemption price of all preferred shares calculated as at the first day of the month in which the Redemption Date falls. Such aggregate amount of Redemption Payments includes amounts payable to shareholders who have previously tendered their preferred shares for redemption and the Redemption Payment for which has not been paid in full as of that Redemption Date. Redeemable Shares will be redeemed and Redemption Payments will be paid in order of receipt of Redemption Notices or *pari passu* if, in their sole discretion, the directors determine that *pari passu* would be better suited to the interests of the shareholders or the operations of the Company, on the following Redemption Dates, or such earlier dates as determined by the directors in their sole discretion, until the Redemption Payment for such shares has been paid in full.

Notwithstanding any other provision of this redemption feature, the directors may, in their sole discretion at any time and from time to time suspend the redemption feature in respect of any or all of the preferred shares for such period of time as the directors determine, in their sole discretion, that: (a) conditions exist which render imprudent or impractical the Company's ability to obtain the cash on hand required to make any or all Redemption Payments; or (b) the suspension is in the best interests of the shareholders of the Company as a whole. The suspension may, in the sole discretion of the directors, apply to preferred shares tendered for redemption prior to the suspension but as to which payment in full has not been made, as well as to preferred shares tendered for redemption while the suspension is in effect. Any declaration of suspension by the directors is conclusive.

A shareholder may, with the consent of the Company, which may be given or withheld in its sole discretion, withdraw its redemption request and revoke its Redemption Notice by providing written notice to the Company.

Notwithstanding any other provision of this redemption feature, the directors may, but are not obliged to, in their sole discretion at any time and from time to time waive or alter the amount or payment of a fee or discount, or the reduction or limitation of any Redemption Payment, on any terms and conditions they so determine for any particular redemption request.

Redemption price

The redemption price of a Series A1 preferred share, Series B1 preferred share or Series F1 preferred share at any time means the price of such preferred share as determined by the directors, acting reasonably, but in their sole discretion.

Factors that may be considered in determining redemption price at any time may include, without limitation, the last redemption price of that series of preferred share, the last offering price of that series of preferred share, the assets and liabilities attributable to that series of preferred share, the net sale, issue and holding costs of such preferred share, specific class or series expenses attributable to such preferred share, market prices for similar investments that are traded on a stock exchange in Canada, the variation inherent in any estimates used in the calculation of the redemption price of the preferred share to be redeemed, the liquidity reasonably available to the Company and/or general economic conditions in Canada.

	2014	2013
	\$	\$
Net earnings (loss)	14,811	(584)
Weighted-average number of common shares	100	100
Net earnings (loss) per share	148.11	(5.84)

The diluted earnings per share is equal to the basic earnings per share as there are no dilutive instruments.

13. Financial instruments and financial risk management

Financial instruments

Fair value of financial instruments

In determining the fair value of financial instruments, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs reflect market-driven or market-based information obtained from independent sources, while unobservable inputs reflect the Company's estimate about market data. Based on the observability of significant inputs used, the Company classifies its fair value measurements in accordance with a three-level hierarchy. This hierarchy is based on the quality and reliability of the information used to determine fair value.

Level 1 - Valuations are based on quoted prices in active markets for identical assets or liabilities. Since the valuations are based on quoted prices that are readily available in an active market, they do not entail a significant degree of judgment.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

13. Financial instruments and financial risk management (continued)

Financial instruments (continued)

Fair value of financial instruments (continued)

Level 2 - Valuations are based on observable inputs other than quoted prices.

Level 3 - Valuations are based on at least one unobservable input that is supported by little or no market activity and is significant to the fair value measurement.

In assigning the appropriate levels, the Company performs a detailed analysis of the financial assets and liabilities. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. The level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement in its entirety. Therefore, an item may be classified in Level 3 even though there may be other significant inputs that are readily observable.

As at April 30, 2014, there were no financial assets or financial liabilities that were measured at FVTPL.

The carrying values of cash, accounts receivable, finance income receivable, accounts payable and accrued liabilities, due to related companies and dividends payable approximate their fair values due to their short-term nature.

The carrying values of mortgages receivable that are not impaired approximate their fair values as they have a short term to maturity and bear interest at market rates. The carrying values of Series A1, B1 and F1 preferred shares are measured using the amortized cost method and are recorded at the redemption price which approximates their fair values.

The Company's financial instruments recorded at fair value have been categorized as follows:

	Carrying value	Fair value measurements using		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$
2014				
Financial assets				
Mortgages receivable - not impaired	2,693,539	-	-	2,693,539

Redemption of Series A1, B1 and F1 preferred shares	(41,929)
Redemption gain	(28,770)
Series A1, B1 and F1 preferred shares, April 30, 2014	2,866,418

Risk management

The Company holds various financial instruments, and its activities expose it to a variety of financial risks: interest rate risk, credit risk and liquidity risk. The Company's directors have overall responsibility for the establishment and oversight of the Company's risk management framework.

i) Credit risk

The Company's principal financial assets are cash and mortgages receivable, the carrying amount of which represents the Company's exposure to credit risk in relation to financial assets.

The Company's credit risk is primarily attributable to its mortgages receivable. The amounts disclosed in the statement of financial position are net of mortgage impairment provisions estimated by the Company based on previous experience and its assessment of the current economic environment. In order to reduce its risk, the Company has adopted investment policies, practices and restrictions as follows:

- a) We will invest in commercial, industrial and residential mortgages;
- b) We will make investments by purchasing interests in investments originated, sourced or arranged by CCI and its affiliates and associates; however, except where the loan or investment is being made to assist or facilitate, or as part of a recovery or enforcement process for, an existing investment of the Company, we will not purchase investments where the borrower or the beneficial owner of the property being mortgaged is CCI or any affiliate of CCI;
- c) Following funding, all of our mortgages will be registered on title to the subject property in our name, CCI or its affiliates' name, or a nominee bare trustee for us or CCI;
- d) All mortgage investments will be made in Canada;
- e) We will generally invest only in mortgages on properties for which we have reviewed and evaluated an independent appraisal and generally we will receive a Phase I Environmental Audit of the property;

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

13. Financial instruments and financial risk management (continued)

Risk management (continued)

i) Credit risk (continued)

- f) We will generally not invest in a mortgage or loan any funds to be secured by a mortgage unless at the date the mortgage is acquired or funds are initially committed (as the case may be) the indebtedness secured by such mortgage plus the amount of additional secured third party indebtedness of the borrower in priority to us, if any, generally does not exceed, on a property-by-property basis, (a) 75% of the appraised value of the real property securing the mortgage, as determined by our directors or such person(s) authorized by the directors from time to time; or (b) in the case of a mortgage on a residential construction project which has been presold, 80% of the sale price; provided that the appraised value may be based on stated conditions including without limitation, construction, completion, rehabilitation or lease-up of improvements located on the real property;
- g) If the independent appraisal reports an appraised value for the real property securing the mortgage other than on an "as is basis", we may advance funds under a loan by way of progress payments upon completion of specified stages of construction or development supported by receipt of reports of qualified inspectors, which may include professional engineers, architects or quantity surveyors, as applicable, or upon completion of other specified milestones;
- h) We will not make any investment that would result in our failing to qualify as a mortgage investment corporation as that term is defined in the Tax Act, as amended from time to time;
- i) To the extent that, from time to time, our funds are not invested in mortgages or mortgage backed securities, we will hold such funds in cash deposited with a Canadian chartered bank or such funds may be invested in short-term investments, deposits, savings accounts or government guaranteed income certificates or treasury bills so as to maintain a level of working capital for our ongoing operations considered acceptable by our directors in their sole discretion; and
- j) We may, as a means of investing indirectly in mortgages, invest in mortgage backed securities, provided that the securitized portion of the mortgages in which we invest and which secure the bond, unit or other financial obligations that comprise the mortgage backed securities meet the requirements of paragraph (f) above.

The Company assesses the creditworthiness of its customers on an ongoing basis as well as monitoring the amount and age of balances outstanding. Mortgages receivable are fully secured by a charge against the underlying assets. Mortgages receivable that are considered to be neither outstanding nor impaired have a high credit quality as the Company only invests in mortgage receivables with counterparties that have been independently reviewed by CCI and are considered to be in good credit standings and have the ability to pay both principal and interest payments as required. Accordingly, the Company views the credit risk on these amounts as normal for the industry.

The credit risk on cash on deposit is with Canadian chartered banks with high credit ratings assigned by Moody's and Standard & Poor's.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

13. Financial instruments and financial risk management (continued)

Risk management (continued)

i) Credit risk (continued)

The carrying amount of financial assets represents the maximum credit exposure, and therefore the credit risk at the reporting date was as follows:

	2014	2013
	\$	\$
Cash	46,003	16,558
Accounts receivable	3,086	1,789
Finance income receivable	15,342	-
Mortgages receivable	2,830,567	2,634,720
	2,894,998	2,653,067

The credit exposure related to mortgages receivable is outlined in Note 7.

Although the Company seeks to manage its credit risk exposure, there can be no assurance that the Company will be successful in eliminating the potential adverse impact of such risks.

ii) Interest rate risk

The Company is exposed to interest rate risk on the fixed interest rate mortgages receivable and bank indebtedness to the extent of changes in the prime interest rate. The Company currently has variable interest bearing loans or investments.

Interest rate risk sensitivity analysis

As at April 30, 2014, an increase or decrease of 0.5% in interest revenue earned on the ending mortgages receivable would have the following impact on net earnings and comprehensive income:

	2014	2013
	\$	\$
0.5% increase in interest revenue	14,153	13,167
0.5% decrease in interest revenue	(14,153)	(13,167)

iii) Liquidity risk

Ultimate responsibility for liquidity risk management rests with management which has established an appropriate liquidity risk management for the management of the Company's short, medium, and long-term funding and liquidity management requirements. The Company's objective is to have sufficient liquidity to meet its liabilities when due. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Canadian Horizons First MIC Fund Inc.

Notes to the financial statements

April 30, 2014

(In Canadian dollars)

13. Financial instruments and financial risk management (continued)

Risk management (continued)

iii) Liquidity risk (continued)

The Company has the following financial liabilities at the reporting date:

			2014	
	Carrying value	Current	Due between 61 to 365 days	Due greater than 365 days
	\$	\$	\$	\$
Accounts payable and accrued liabilities	9,994	9,994	-	-
Due to related companies	3,731	3,731	-	-
Dividends payable	6,592	6,592	-	-
Series A1 preferred shares	1,959,794	-	182,627	1,777,167
Series B1 preferred shares	906,606	-	-	906,606
Series F1 preferred shares	18	-	-	18
	2,886,735	20,317	182,627	2,683,791

			2013	
	Carrying value	Current	Due between 61 to 365 days	Due greater than 365 days
	\$	\$	\$	\$
Accounts payable and accrued liabilities	3,827	3,827	-	-
Due to related companies	4,054	4,054	-	-
Dividends payable	6,742	6,742	-	-
Series A1 preferred shares	1,917,331	-	40,420	1,876,911
Series B1 preferred shares	721,070	-	-	721,070
Series F1 preferred shares	18	-	-	18
	2,653,042	14,623	40,420	2,597,999

Mortgage investments tend to be relatively illiquid, with the degree of liquidity generally fluctuating in relation to demand for and the perceived desirability of the investment. Such illiquidity may tend to limit the Company's ability to vary its mortgage investments promptly in response to changing economic or investment conditions. If the Company were required to liquidate its real property mortgage investments, the proceeds to the Company might be significantly less than the total value of its investments. The Company will be subject to the risks associated with debt financing, including the risk that mortgage indebtedness secured by the properties of the Company will not be able to be refinanced or that the terms of refinancing will not be as favourable as the terms of the existing indebtedness.

Canadian Horizons First MIC Fund Inc.

Due to related companies	377	3,354
	<u>5,227</u>	<u>618</u>

15. Capital disclosures

The Company defines capital as common and Series A1, Series B1 and Series F1 preferred shares as recognized in the financial statements. The Company's management of capital is to safeguard the Company's ability to continue as a going concern in order to provide shareholders with sustainable income while preserving capital for distribution or reinvestment by investing in mortgages receivable commensurately with the Company's investment policies.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets.
